

Luis Emilio Cedano Martínez

WORK EXPERIENCE

FAMILY BUSINESSES — 2020–2025

☎ +1 (829) 370-0696

Functions: Operational and financial management, inventory and sales control, incident resolution, customer service and administrative coordination.

DR TRADE 2022 - 2023

(User Support)

☎ +1 (809) 518-8908

✉ info@drtrade.com.do

Platform focused on logistics data exchange.

Provided user support within digital logistics ecosystem and assisted in operational workflow handling.

CHARO DECORACIONES, STGO. 2017 - 2020

(Warehouse & Logistics Supervisor)

☎ +1 (809) 581-8500

✉ gobi@charo.com.do

Operational coordination and inventory oversight

Logistics and warehouse management

Customer interaction and support.

STRATEGIC COMPETENCIES

- Business process understanding.
- Operational efficiency mindset.
- Structured problem analysis.
- Technical documentation capability.

EDUCATION

2012 - 2016

UNIVERSIDAD TECNOLÓGICA DE SANTIAGO (UTESA)

Tourism Business Administration.

2022 - 2023

INSTITUTO CULTURAL DOMÍNICO AMERICANO

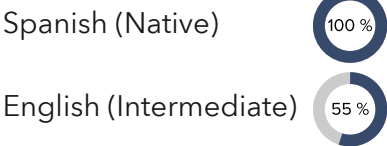

Adult Advanced English Courses.

2024 - AT THE
MOMENT

INSTITUTO TECNOLÓGICO DE LAS AMÉRICAS (ITLA)

Instituto Tecnológico de las Américas — ITLA. GPA: 3.9

LANGUAGES

SKILLS

■ Technical:

Backend: C# / .NET / ASP.NET Core, Java, Python, REST API Development

Frontend: HTML / CSS, JavaScript, Bootstrap.

Databases: SQL Server, MySQL, SQLite, Entity Framework.

Tools & DevOps: GitHub, Docker, Visual Studio Code, Microsoft 365.

Other: Layered Architecture, JWT Authentication, Dependency Injection.

■ Soft Skills:

Analytical problem solving.

Technical communication.

Agile teamwork.

Collaborative leadership.

Project-oriented planning.

Time and priority management.

Adaptability to technological environments.

CERTIFICATIONS & TECHNICAL TRAINING

■ Udemy

- Java Professional Development.
- Advanced Python Programming.
- Node.js Backend Development & Security.
- MySQL Database Design & Administration.
- Cybersecurity & Ethical Hacking Fundamentals.

■ Coursera

- Machine Learning with Python — IBM
- Artificial Intelligence Specialization

ACADEMIC EXPERIENCE / APPLIED PROJECTS

■ CmLayer - Personal Technology Platform

Personal technology ecosystem focused on developing integrated digital solutions, including architecture design, technical branding, documentation, and specialized repositories covering:

- Backend development and APIs
- Cybersecurity
- Applied artificial intelligence
- Automation and DevOps
- Business-oriented software structuring

Technologies:
C#, .NET, Java, Python, SQL, JavaScript

Website: <https://cmlayer.com>

■ AgendaTuCita - Enterprise Multi-Layer API

Backend system developed in ASP.NET Core applying layered architecture principles.

- REST API structure
- JWT authentication
- Role management
- Entity Framework Core
- SQL Server
- Dependency injection
- Business rule validation

Focused on scalability and maintainability best practices.

■ CmLayer Intelligence Hub

SaaS platform in development for automated repository analysis and engineering metrics generation, designed for scalable architecture and technology decision support.
